

### Spectacle Eyewear EYS1 S902IOHC

<b>Description</b>	Indoor/Outdoor Hard Coated Safety Spectacle
<b>Lens</b>	Indoor/outdoor lens. The 100% Polycarbonate material increases worker protection by resisting low impact.
<b>Physical Properties</b>	Stylish lightweight safety spectacle with anti-scratch lens coating. One piece optical front reduces imbalance of two-lens eyewear and eliminates the chance of lens popping out on impact. Light, evenly distributed weight provides for greater comfort and wearer acceptance.
<b>Uses</b>	This spectacle can be used in areas where the risk of injury from low impact is present, for example, grinding, drilling, or woodworking. Provides the wearer with clear vision indoors and glare protection outdoors. Affordable priced spectacle with good quality characteristics.
<b>Precautions</b>	Not to be used for any form of gas cutting or gas welding. Not to be used when Arc welding. No protection is offered from infra-red radiation. Not suitable as protection from chemical splash.
<b>Standards</b>	AS/NZS 1337.1, Stamping N I 1
