

### Face Shields

### HFV1 FC15

<b>Description</b>	PETG Visor Attached to an Aluminium Frame
--------------------	---

<b>Physical Properties</b>	The PETG visor is fitted with a 0.8mm aluminium strip around 3 edges of the face shield, so that it can be formed around the front and sides of the user's face. Visor is clear with dimensions of 390mm x 202mm and 1.0mm thick.
----------------------------	---

<b>Uses</b>	Used for limited protection of the eyes and face from dust, metal machining and chemical splash
-------------	---

<b>Standard</b>	None
-----------------	------

<b>Precautions</b>	Not to be used when working near extreme heat sources e.g. furnace
--------------------	--
