

## Product Data Sheet – HEAD & FACE PROTECTION – Face Shields

### Face Shields      HFV1 FC158

<b>Description</b>	Spare Moulded Polycarbonate Visor
<b>Physical Properties</b>	The visor has been curved so that the front and sides of the user's face are protected. Ideal shape to combine with helmet mounted earmuffs. Visors are available in clear, green and IR5. Dimensions of 395 x 204mm and 1.5mm thick.
<b>Uses</b>	Visors are resistant to medium energy impact, metal machining, dust, chemicals, liquid splashes. Green visors offer additional protection for glare. IR shade 5 visors offer additional protection for brazing, gas soldering, and moderate heat sources.
<b>Standard</b>	ANSI Z87.1-2003 (when used with headgear)
<b>Precautions</b>	Does not protect against severe impact, corrosive liquids, high heat radiation, explosive devices and molten metal.
