

Direct Thread Respirators

RPC1 HFPC3007

Description Compact Air Filters

Physical Properties Lightweight double coated aluminium cartridges. Wide range of filters against almost all substances. No damage by sparks or heat. No air-cracks possible, no chemical penetration. Reduce inventory.

Standards EN 148-1

Uses The North filter canisters are approved to be used on North 7700/15 half mask, the N5400 Class 2 and all other manufacturers approved masks with DIN 148 standard thread connection. The same filters can be used for the North Powered Air system, Compact Air.
