Product Data Sheet – LOCKOUT & TAGOUT – Lockouts

Lockouts WAL2 256963

Description	**Butterfly Valve Lockout**
Physical Properties	**Made of strong polypropylene plastic. Fully dielectric (non-conductive). Highly resistant to cracking and abrasion. Highly resistant to solvents and other chemical products. Resistant to extreme temperature changes from -46°C to 183°C. 2 padlocks can be applied.**
Uses	**Created to secure a butterfly valve efficiently**
Dimensions	**Height 70mm Width 305mm Length 102mm**
Colour	**Blue**
Max. Shackle Diameter	**8mm**
Min. Shackle Clearance	**25mm**
Packaging	**1**
